

## hold vessel

The SkLO *hold* vessel is a glass wall vase that appears to stretch from the hook on which it hangs. Executed in hand blown glass and hung from a hand made hook, SkLO *hold* vessels can be functional vases, or sculptural objects, and benefit from being shown in multiple. Handblown, no two *hold* vessels are exactly alike.

Available in eight glass colors

Hooks available in three metal finishes: dark oxidized / brushed brass / polished nickel

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
