ring bowl

A broad, shallow bowl of handblown glass that sits freely atop a brass ring base. The handblown glass bowl is blown without the use of a mould – it is shaped by hand while hot on the glass blower's pipe, and it is extra thick and massive as a result. This allows for the lip of the glass bowl to be cut and highly polished. The sturdy brass ring is custom made to fit the bowl, elevating it.

Available in two sizes
