

# **BONA D**

## Flame, Flame Wood

Designer: **Gino Carollo**

Flame's main features are its harmonious shapes and light, sinuous volumes. The top, which is visibly suspended, is fully usable thanks to the position of the double base designed to optimize the overall space. Form and function are perfectly expressed in this table: the extensive customization options allow you to arrange it according to your tastes, needs and

the mood of the surrounding space. The top is available in a number of sophisticated finishes – from wood to ceramic and marble – and you can choose from various metal options for the base. A wooden base is also available for this modern living room table (Flame Wood).
